## WATER IS RISING AT NEW ORLEANS

By Associated Press.  
New Orleans, Feb. 9.—The river gauge today indicated nineteen and three-tenths feet, a rise of three-tenths feet in the past twenty-four hours. This is the largest rise during the present flood.

State engineers say there is no danger, but are keeping a close watch on the levees from north of Vicksburg to this city.

with the prospects of very heavy travel today and tomorrow.

The L. & N. officials do not anticipate very heavy travel until this afternoon, but it is expected that with the arrival of No. 1 from the north the passengers will begin to arrive in large numbers. The largest number will probably reach Pensacola tomorrow morning on the 5 o'clock train from the north. The running of two sections to trains not only applies to the P. & A. and Pensacola divisions, but also to the Selma division, from which section it is expected many will arrive.

## PALAFOX STREET WAS BRIGHTLY ILLUMINATED

Palafox street was illuminated last night in a manner that caused much comment by those upon the streets. At 6 o'clock the hundreds of incandescent lights were turned on, and in addition there were a number of electrical displays in business houses which illuminated the city in a most pleasing manner. There are in the neighborhood of five hundred incandescent lights stretched across Palafox street, and at the intersection of Garden and Palafox there is suspended across the street the word "Welcome" the letters being formed by many incandescent lights.

One of the pretty electrical displays is that of the Concordia Club on East Intendencia street, while the entire club appears in large letters across Intendencia street, while the entire front of the building is hung with numerous incandescent lights.

## CARNIVAL COLORS ALSO MUCH IN EVIDENCE

The Carnival colors are also much in evidence. There are but few of the business houses which are not decorated and the decorators have not completed their work. On the contrary many of them will continue at work through today and tomorrow morning, and it is freely predicted that by that hour the decorations will be more numerous than on any previous event of this character.

The Queen of the Carnival will view the parade and greet King Priscus tomorrow at noon from the balcony of the custom house, and today decorators will be engaged in placing the Carnival colors about the balcony. This point has been selected as the most favorable in the city and it is just opposite the custom house that the mayor of the city is to deliver the keys of the city to the king.

## DODOITES ARE READY FOR THEIR COMIC PARADE

The subjects of King Dodo, who is to make his first appearance in Pensacola tomorrow night, are in readiness for their comic parade, which promises to be one of the enjoyable events of the Carnival season. Today there will be a meeting of the society and all of the young men who are to participate in the parade. This will be held at the armory hall, and costumes will be distributed to all of those who attend.

After the parade the Dodoites will give a masquerade ball at the armory hall, when King Dodo and Queen Dordina will unmask and their identity will be revealed. The young men who were to have given the dance at the C. K. of A. hall have decided to give way to the Mystic Society on this night and assist in the ball, and Barrios' orchestra will furnish the music.

## CARNIVAL ASSOCIATION HELD ITS LAST MEETING

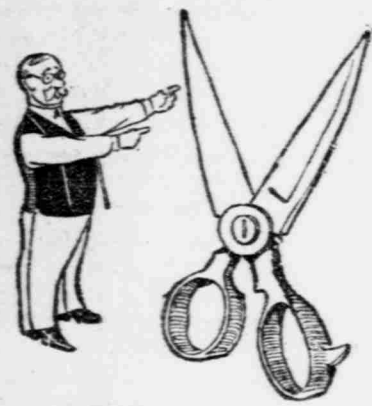

The Carnival Association held its last meeting before the arrival of King Priscus last night, when the members gathered and heard reports from the various committees. These reports showed that everything is in readiness for the arrival of King Priscus, and also that the Mystic parade of Tuesday night will be one of the grandest ever witnessed in the city.

council, which is to be forfeited in case of their failure to grade the above named forty miles of road.

"It is the opinion of your committee that this ordinance should receive the unanimous support of the city council and the people of Pensacola, as it virtually assures us of two new railroads which are badly needed and the absence of which has for years held back the growth of our city. It is unnecessary to refer to the original ordinances, as you are aware they were carefully gone over many times by this council, and the interests of

Read Second Time.

After hearing the report of the committee the ordinance relating to the extension of time of the two railroads was read for the second time and referred to the ordinance and engrossing committee, and city attorney, with instructions to report at the regular meeting of the council Wednesday night in order that the ordinance may be placed upon its third and last reading.

During the discussion of the ordinance it was stated that the deposit of \$15,000 to guarantee the completion of twenty miles of road within six months, was being furnished by New York parties who are to finance the road.

## WIRELESS FROM THE ROYAL YACHT

A wireless message received in the city yesterday caused much uneasiness on the part of the loyal subjects of King Priscus VIII, who is due to reach Pensacola at high noon tomorrow.

The wireless message, which was received by President Walker Ingraham, of the Carnival Association, stated that the Royal Yacht, bearing His Majesty and attendants, and
